## **Community School of Music and Arts Presents Digital Photography & Video by Yanling He**

MOUNTAIN VIEW, CA – The Community School of Music and Arts (CSMA) in Mountain View presents an exhibition of digital photography and video by artist Yanling He. The exhibition will be on display in CSMA's Mohr Gallery from March 23 through May 6, 2018. There will be a reception with the artist on Friday, April 6 from 6-8pm.

Yanling He is a computer scientist, photographer and visual artist, best known for her computational graphics art. Her love for art came from studying computer graphics. Through the rendering of computer graphics, she found the connection of virtual imagination to the real physical world. Her work explores the boundary of virtual and real, natural and artificial. Three parts of her work will be shown: Part I: Computational Motion Graphics, Part II: Computational Static Visual Art, Part III: Photography.

Born in Tianjin, China, Yanling He later moved to Seattle to study computer and electrical engineering. After graduation, she came to San Francisco to work as a computer scientist. She also began traveling around the world taking photos and making visual artwork. She has been to seventeen countries and over one hundred cities. Her work has been exhibited throughout the United States, as well as Europe and Asia.

This exhibition is presented in conjunction with CSMA's Electronic Music Festival, a free, three-day, interactive festival celebrating the intersection of music and technology. The festival will be held April 13-15, and features performances from headliners The Flashbulb, Bathing and Hurd Ensemble, as well as Daniel Berkman, John Chowning & Curtis Roads, the Paul Drescher/Joel Davel Duo and Polybius Ensemble. Tickets are available at <http://arts4all.org/electronic-music-festival>.
